|--------------|---|
| Hammer       |  |
| Drill        |  |
| Screw driver |  |

**Note.** : 6 Feet pole can be cut down to 4 feet pole making use of routed channel.

Both 3 ' Poles come complete with 6" routed channel on each end.

## **Assembly Instructions**

- Step1.** Determine desired pole length. \*\*
- Step2.** Mark cuts to be made on each pole end. 2 or 4 cuts may be required. .
- Step3.** Cut each end to size.
- Step4.** Tap in bushings on each end.
- Step5.** Connect both poles using connector provided..

\*\* If Desired pole length is less than routed allowance. Drill out hole 1" deep using 5/8" drill bit.  
Repeat Step 4.

\* To be used only if metal bushing is loose.

**Note.** Each Eddie Bauer pole set comes complete with extra connector. Use connector to join multiple poles together.
